Summary

I am a third-year IT student specializing in business application programming, with a strong passion for learning and mastering new technologies. My favorite programming language is Java, but I am eager to explore and excel in various tools and languages. I am detail-oriented and strive for excellence in both front-end and back-end development. My ultimate goal is to become a full-stack web developer, crafting seamless, efficient, and user-friendly applications. I am actively seeking opportunities to gain hands-on experience in the IT field to further develop my skills.
